Meeting Date: March 6, 2018

Item Title: LED Conversion Project Update

Submitted By: Ross Owen, Director of Transmission & Distr

Council Goal: Consistent Delivery of Reliable City Services

ISSUE

Update City Council on the status of the LED Conversion Project. This will include the percentage of completion for each Phase of the project and the remaining schedule.

RECOMMENDATION

For informational purposes only.

BACKGROUND

GP&L recognized the need to address the aging streetlight infrastructure in 2014, and began working on a project to upgrade all the median and thoroughfare lights with new light-emitting diode (LED) lights and poles. This was to enhance the esthetics, improve the efficiency, and reduce the maintenance costs of the streetlight system. In addition, a new streetlight management system would be installed in conjunction with the LED lights, which would allow for improved monitoring and control of the system.

In 2015, GP&L was requested by City Council to include residential lights into the program. GP&L generated specifications and selected replacement lights for the residential areas. The lights selected by GP&L were equivalent replacements for the 100W high pressure sodium (HPS) lights currently installed in these areas.

The overall project is sectionalized into eight phases for median and thoroughfare lighting, and seven phases for residential lighting. As of February 9, 2018, the project remains on schedule and budget.

Figure 1 below is a chart showing the percentage completed for each Phase for both median/thoroughfare and residential lights through February 9, 2018.

Figure 1

Year	Median & Thoroughfare	Total Lights Residential	Total Lights
2015	Phase 1 – 100%	774	
2016	Phase 2 – 100%	560	Phase 1 – 100% 2,207
2017	Phase 3 – 100%	668	Phase 2 – 100% 816*
2018	Phase 4 – 9%	302	Phase 3 – 8% 1,809*
2019	Phase 5 – 0%	657	Phase 4 – 6% 1,363
2020	Phase 6 – 0%	718	Phase 5 – 8% 971
2021	Phase 7 – 0%	1,201	Phase 6 – 3% 1,351
2022	Phase 8 – 0%	395	Phase 7 – 6% 1,471

As noted on Figure 1, there are some residential lights that have been converted to LED lights prior to their scheduled replacement. This is due to failures with the existing HPS lights. Instead of replacing these lights with HPS lights, LED lights were installed. This will reduce the number of residential LED lights that will have to be installed in future Phases.

** 2017 (Residential - Phase 2) – 1,131 lights were carried over to Phase 3 (2018). This was indicated in the updated schedule presented to City Council in December 2016. This carryover was due to logistical issues with material associated with these lights.*

CONSIDERATION

GP&L is still on track to meet the modified implementation schedule that was presented to City Council in December 2016. This is indicated on the attached median/thoroughfare and residential light schedules for 2018.

Attached are Overview, Phase 3, and Phase 4 maps displaying the areas of conversion for calendar year 2018.

GARLAND POLICY REPORT

City Council Work Session Agenda

2.b.

Meeting Date: March 6, 2018

Item Title: Atmos Settlement Agreement

Submitted By: Matt Watson, Finance Director

Council Goal: Defends Rightful Powers of Municipalities

ISSUE

Council is requested to consider approval of the Settlement Agreement with Atmos Energy Mid-Tex Division ("Atmos Mid-Tex") and a revised Rate Review Mechanism (RRM) tariff.

OPTIONS

1. Approve the Settlement Agreement
2. Do not approve the Settlement Agreement

RECOMMENDATION

Unless otherwise directed by Council, this item will be scheduled for formal consideration at the March 6, 2018 Regular Meeting.

BACKGROUND

The City, along with other similarly situated cities served by Atmos Energy Corp., Mid-Tex Division ("Atmos Mid-Tex" or "Company"), is a member of the Atmos Cities Steering Committee ("ACSC"). In 2007, The Cities and Atmos Mid-Tex settled a rate application filed by the Company pursuant to Section 104.301 of the Texas Utilities Code for an interim rate adjustment commonly referred to as a GRIP filing (arising out of the Gas Reliability Infrastructure Program legislation). That settlement created a substitute rate review process, referred to as Rate Review Mechanism ("RRM"), as a substitute for future filing under the GRIP statute.

Since 2007, there have been several modifications to the original RRM Tariff. The Ordinance that resolved the Company's application under the Tariff in 2017 also terminated the existing RRM tariff and required a renegotiation of the terms of the tariff. Negotiations have taken place over the past several months, and have resulted in a revised RRM tariff that has been agreed to by the Company. The Cities' Executive Committee has recommended acceptance of the revised RRM Tariff, which is attached to the Ordinance.

The RRM Tariff on which the 2017 rates were based allowed a rate of return on equity of 10.50%. The revised RRM tariff reduces that to 9.8%. The revised RRM Tariff also captures the reduction in federal income tax rates from 35% to 21%, and should result in a rate reduction effective by mid-March, 2018. Prior RRM tariffs allowed Cities only three months to review the Company's filing. The new revised Tariff expands that time period by two months. New

applications by the Company should be made on or about April 1 of each year, with the new rates effective October 1. A rate order from the Railroad Commission in an Atmos Texas Pipeline rate case adopted the position of Cities with regard to incentive compensation related to Atmos' Shared Service Unit that reduced allowed expenses, and that reduced level of expenses will be applicable under the new RRM Tariff.

CONSIDERATION

The RRM tariff and the process implementing that tariff were created collaboratively by ACSC and Atmos Mid-Tex as an alternative to the GRIP surcharge process. ACSC has opposed GRIP because it constitutes piecemeal ratemaking, does not allow any review of the reasonableness of Atmos' expenditures, and does not allow participation by cities or recovery of cities' rate case expenses. In contrast, the RRM process has allowed for a more comprehensive rate review and annual adjustment as a substitute for GRIP filings.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARLAND, TEXAS, APPROVING A TARIFF AUTHORIZING AN ANNUAL RATE REVIEW MECHANISM ("RRM") AS A SUBSTITUTION FOR THE ANNUAL INTERIM RATE ADJUSTMENT PROCESS DEFINED BY SECTION 104.301 OF THE TEXAS UTILITIES CODE, AND AS NEGOTIATED BETWEEN ATMOS ENERGY CORP., MID-TEX DIVISION ("ATMOS MID-TEX" OR "COMPANY") AND THE STEERING COMMITTEE OF CITIES SERVED BY ATMOS; REQUIRING THE COMPANY TO REIMBURSE CITIES' REASONABLE RATEMAKING EXPENSES; ADOPTING A SAVINGS CLAUSE; DETERMINING THAT THIS ORDINANCE WAS PASSED IN ACCORDANCE WITH THE REQUIREMENTS OF THE OPEN MEETINGS ACT; DECLARING AN EFFECTIVE DATE; PROVIDING THAT THE TERMS OF ANY FRANCHISE BETWEEN ATMOS MID-TEX CONTROL OVER ANY CONFLICTING TERM CONTAINED IN ANY TARIFF; AND REQUIRING DELIVERY OF THIS ORDINANCE TO THE COMPANY AND LEGAL COUNSEL FOR THE STEERING COMMITTEE.

WHEREAS, the City of Garland, Texas ("City") is a gas utility customer of Atmos Energy Corp., Mid-Tex Division ("Atmos Mid-Tex" or "Company"), and a regulatory authority with an interest in the rates and charges of Atmos Mid-Tex; and

WHEREAS, the City and similarly-situated Mid-Tex municipalities created the Steering Committee of Cities Served by Atmos to efficiently address all rate and service matters associated with delivery of natural gas; and

WHEREAS, the Steering Committee formed an Executive Committee to direct legal counsel and to recommend certain specific actions to all aligned Mid-Tex Cities through resolution or ordinance; and

WHEREAS, pursuant to the terms of a November 2007 agreement between the Steering Committee and Atmos Mid-Tex that settled the Company's interim rate filing under Section 104.301 of the Texas Utilities Code (a "GRIP" rate case), the Steering Committee and the Company collaboratively developed a Rate Review Mechanism ("RRM") Tariff, ultimately authorized by the City in 2008, that allows for an expedited rate review process as a substitute for the GRIP process; and

WHEREAS, the City has kept some form of a RRM Tariff in place until 2017 when it adopted an ordinance approving an RRM Tariff filing settlement and specifically calling for termination of the existing RRM Tariff and negotiation of a replacement RRM Tariff following the Railroad Commission's decision in a then-pending Atmos Texas Pipeline case (GUD No. 10580); and

WHEREAS, the Steering Committee's Executive Committee has recently approved a settlement with the Company on the attached RRM Tariff that contains certain notable improvements, from a consumer perspective, over the prior RRM Tariff, including a reduced rate of return on equity, acceptance of certain expense adjustments made by the Railroad Commission in the Order in GUD No. 10580, and the addition of two months to the time for processing a RRM Tariff application; and

WHEREAS, the RRM Tariff contemplates reimbursement of Cities' reasonable expenses associated with RRM Tariff applications; and

WHEREAS, the Steering Committee's Executive Committee recommends that all Steering Committee member cities adopt this ordinance and the attached RRM Tariff; and

WHEREAS, the attached RRM Tariff is just, reasonable and in the public interest,

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARLAND, TEXAS:

Section 1

That the findings set forth in this Ordinance are hereby in all things approved.

Section 2

That the attached RRM Tariff re-establishing a form of Rate Review Mechanism is just and reasonable and in the public interest, and is hereby adopted.

Section 3

That Atmos Mid-Tex shall reimburse the Cities' reasonable expenses associated with adoption of this Ordinance and the attached RRM Tariff and in processing future RRM Tariff applications filed pursuant to the attached tariff.

Section 4

To the extent that any ordinance or resolution previously adopted by the City may have, or may be construed to have, surrendered or limited such original ratemaking authority in the past, such resolution or ordinance is hereby repealed, and the City reasserts and reaffirms such original jurisdiction to the fullest extent allowed by law.

Section 5

That to the extent any resolution or ordinance previously adopted by the City is inconsistent with this Ordinance, it is hereby repealed.

Section 6

That the meeting at which this Ordinance was approved was in all things conducted in strict compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 7

That if any one or more sections or clauses of this Ordinance is adjudged to be unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions of this Ordinance, and the remaining provisions of this Ordinance shall be interpreted as if the offending section or clause never existed.

Section 8

That this Ordinance shall become effective from and after its passage.

Section 9

That nothing contained in the RRM Tariff approved by this Ordinance shall be construed to supersede the terms and conditions of any franchise agreement entered into between the City and Atmos Mid-Tex and the terms of such franchise agreement shall control over any conflicting term of the RRM Tariff any other tariff to which Atmos Mid-Tex may be subject except as and only to the extent such conflicting term has been otherwise particularly and expressly approved by the City Council.

ATMOS ENERGY CORPORATION
MID-TEX DIVISION

RATE SCHEDULE:	RRM – Rate Review Mechanism	
APPLICABLE TO:	ALL CITIES IN THE MID-TEX DIVISION AS IDENTIFIED IN EXHIBIT A TO THIS RATE SCHEDULE	
EFFECTIVE DATE:	Bills Rendered on and after 04/01/2018	PAGE: 1

I. Applicability

Applicable to Residential, Commercial, Industrial, and Transportation tariff customers within the city limits of cities identified in Exhibit A that receive service from the Mid-Tex Division of Atmos Energy Corporation (“Company”). This Rate Review Mechanism (“RRM”) provides for an annual adjustment to the Company’s Rate Schedules R, C, I and T (“Applicable Rate Schedules”). Rate calculations and adjustments required by this tariff shall be determined on a System-Wide cost basis.

II. Definitions

“Test Period” is defined as the twelve months ending December 31 of each preceding calendar year.

The “Effective Date” is the date that adjustments required by this tariff are applied to customer bills. The annual Effective Date is October 1.

Unless otherwise provided in this tariff the term Final Order refers to the final order issued by the Railroad Commission of Texas in GUD No. 10170 and elements of GUD No. 10580 as specified in Section III below.

The term “System-Wide” means all incorporated and unincorporated areas served by the Company.

“Review Period” is defined as the period from the Filing Date until the Effective Date.

The “Filing Date” is as early as practicable, but no later than April 1 of each year.

III. Calculation

The RRM shall calculate an annual, System-Wide cost of service (“COS”) that will be used to adjust applicable rate schedules prospectively as of the Effective Date. The Company may request recovery of its total cost of service but will include schedules showing the computation of any adjustments. The annual cost of service will be calculated according to the following formula:

$$\text{COS} = \text{OM} + \text{DEP} + \text{RI} + \text{TAX} + \text{CD}$$

Where:

OM = all reasonable and necessary operation and maintenance expenses from the Test Period adjusted for known and measurable items and prepared

consistent with the rate making treatments approved in the Final Order. Incentive compensation (Management Incentive Plan, Variable Pay Plan and Long Term Incentive Plan) related to Atmos' Shared Services Unit will be applied consistent with treatment approved in GUD 10580. Additionally, O&M adjustments will be incorporated and applied as modified by a final order, not subject to appeal, issued by the Railroad Commission of Texas in subsequent rate cases involving the Atmos Mid-Tex or West Texas divisions. Known and measurable adjustments shall be limited to those changes that have occurred prior to the Filing Date. OM may be adjusted for atypical and non-recurring items. Shared Services allocation factors shall be recalculated each year based on the latest component factors used during the Test Period, but the methodology used will be that approved in the Final Order in GUD 10580.

DEP = depreciation expense calculated at depreciation rates approved by the Final Order. Additionally, if depreciation rates are approved in a subsequent final order, not subject to appeal, issued by the Railroad Commission of Texas for the Mid-Tex division those rates would be applicable for subsequent RRM filings.

RI = return on prudently incurred investment calculated as the Company's pretax return multiplied by rate base at Test Period end. Rate base is prepared consistent with the rate making treatments approved in the Final Order, and as in GUD 10580 as specifically related to capitalized incentive compensation (Management Incentive Plan, Variable Pay Plan and Long Term Incentive Plan) for Atmos' Shared Services Unit. However, no post Test Period adjustments will be permitted. Additionally, adjustments will be incorporated and applied as modified by a final order, not subject to appeal, issued by the Railroad Commission of Texas in subsequent rate cases involving the Atmos Mid-Tex or West Texas divisions. Pretax return is the Company's weighted average cost of capital before income taxes. The Company's weighted average cost of capital is calculated using the methodology from the Final Order including the Company's actual capital structure and long term cost of debt as of the Test Period end (adjusted for any known and measurable changes that have occurred prior to the filing date) and the return on equity of 9.8%. However, in no event will the percentage of equity exceed 58%. Regulatory adjustments due to prior regulatory rate base adjustment disallowances will be maintained. Cash working capital will be calculated using the lead/lag days approved in the Final Order. With respect to pension and other postemployment benefits, the Company will record a regulatory asset or liability for these costs until the amounts are included in the next annual rate adjustment implemented under this tariff. Each year, the Company's filing under this Rider RRM will clearly state the level of pension

and other postemployment benefits recovered in rates.

TAX = income tax and taxes other than income tax from the Test Period adjusted for known and measurable changes occurring after the Test Period and before the Filing Date, and prepared consistent with the rate making treatments approved in the Final Order. Atmos Energy shall comprehensively account for, including establishing a regulatory liability to account for, any statutory change in tax expense that is applicable to months during the Test Period in the calculation to ensure recovery of tax expense under new and old income tax rates.

CD = interest on customer deposits.

IV. Annual Rate Adjustment

The Company shall provide schedules and work papers supporting the Filing's revenue deficiency/sufficiency calculations using the methodology accepted in the Final Order. The result shall be reflected in the proposed new rates to be established for the effective period. The Revenue Requirement will be apportioned to customer classes in the same manner that Company's Revenue Requirement was apportioned in the Final Order. For the Residential Class, 50% of the increase may be recovered in the customer charge. However, the increase to the Residential customer charge shall not exceed \$0.60 per month in the initial filing and \$0.70 per month in any subsequent year. The remainder of the Residential Class increase not collected in the customer charge will be recovered in the usage charge. For all other classes, the change in rates will be apportioned between the customer charge and the usage charge, consistent with the Final Order. Test Period billing determinants shall be adjusted and normalized according to the methodology utilized in the Final Order.

V. Filing

The Company shall file schedules annually with the regulatory authority having original jurisdiction over the Company's rates on or before the Filing Date that support the proposed rate adjustments. The schedules shall be in the same general format as the cost of service model and relied-upon files upon which the Final Order was based. A proof of rates and a copy of current and proposed tariffs shall also be included with the filing. The filing shall be made in electronic form where practical. The Company's filing shall conform to Minimum Filing Requirements (to be agreed upon by the parties), which will contain a minimum amount of information that will assist the regulatory authority in its review and analysis of the filing. The Company and regulatory authority will endeavor to hold a technical conference regarding the filing within twenty (20) calendar days after the Filing Date.

A sworn statement shall be filed by an Officer of the Company affirming that the filed schedules are in compliance with the provisions of this Rate Review Mechanism and are true and correct to the best of his/her knowledge, information, and belief. No testimony shall be filed, but a brief narrative explanation shall be provided of any changes to corporate structure, accounting methodologies, allocation of common costs, or atypical or non- recurring items included in the filing.

VI. Evaluation Procedures

The regulatory authority having original jurisdiction over the Company's rates shall review and render a decision on the Company's proposed rate adjustment prior to the Effective Date. The Company shall provide all supplemental information requested to ensure an opportunity for adequate review by the relevant regulatory authority. The Company shall not unilaterally impose any limits upon the provision of supplemental information and such information shall be provided within seven (7) working days of the original request. The regulatory authority may propose any adjustments it determines to be required to bring the proposed rate adjustment into compliance with the provisions of this tariff.

The regulatory authority may disallow any net plant investment that is not shown to be prudently incurred. Approval by the regulatory authority of net plant investment pursuant to the provisions of this tariff shall constitute a finding that such net plant investment was prudently incurred. Such finding of prudence shall not be subject to further review in a subsequent RRM or Statement of Intent filing.

During the Review Period, the Company and the regulatory authority will work collaboratively and seek agreement on the level of rate adjustments. If, at the end of the Review Period, the Company and the regulatory authority have not reached agreement, the regulatory authority shall take action to modify or deny the proposed rate adjustments. The Company shall have the right to appeal the regulatory authority's action to the Railroad Commission of Texas. Upon the filing of an appeal of the regulatory authority's order relating to an annual RRM filing with the Railroad Commission of Texas, the regulatory authority having original jurisdiction over the Company's rates shall not oppose the implementation of the Company's proposed rates subject to refund, nor will the regulatory authority advocate for the imposition of a third party surety bond by the Company. Any refund shall be limited to and determined based on the resolution of the disputed adjustment(s) in a final, non-appealable order issued in the appeal filed by the Company at the Railroad Commission of Texas.

In the event that the regulatory authority and Company agree to a rate adjustment(s) that is different from the adjustment(s) requested in the Company's filing, the Company shall file compliance tariffs consistent with the agreement. No action on the part of the regulatory authority shall be required to allow the rate adjustment(s) to become effective on October 1. To the extent that the regulatory authority does not take action on the Company's RRM filing by September 30, the rates proposed in the Company's filing shall be deemed approved effective October 1. Notwithstanding the preceding sentence, a regulatory authority may choose to take affirmative action to approve a rate adjustment under this tariff. In those instances where such approval cannot reasonably occur by September 30, the rates finally approved by the regulatory authority shall be deemed effective as of October 1.

To defray the cost, if any, of regulatory authorities conducting a review of the Company's annual RRM filing, the Company shall reimburse the regulatory authorities on a monthly basis for their reasonable expenses incurred upon submission of invoices for such review. Any reimbursement contemplated hereunder shall be deemed a reasonable and necessary operating expense of the Company in the year in which the reimbursement is made. A regulatory authority seeking reimbursement under this provision shall submit its request for reimbursement to the Company no later than December 1 of the year in which the RRM filing is made and the Company shall reimburse regulatory authorities in accordance with this provision on or before December 31 of the year the RRM filing is made.
